

# Recycling of clothes

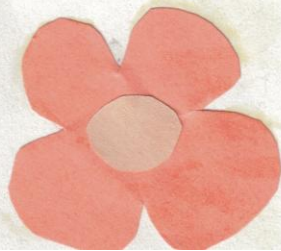

## Bins for clothes recycling

Obsluha nádoby:

- na dosku v hornej časti nádoby je potrebné položiť textil, oblečenie, obuv.
- držiadlo nádoby je potrebné zdvihnúť smerom hore, odpad sám prepadne do dolnej časti nádoby.
- dolná časť nádoby je uzamknutá

# RECYCLING

Každý z nás chce žiť  
v čistom prostredí.  
Robme preň aj my niečo!

# Recyklácia šatstva

Na území Zlatých Moraviec bolo v polovici júla rozmiestnených 22 nových nádob na separovaný odpad. Nezvyčajné kontajnery sú určené na zber šatstva, textilu, obuvi a hračiek. Komodity, ktorú už ľudia nepotrebovali, prevažne doteraz končili na skládke odpadov. Teraz k separácii plastov, skla a papiera pribudol aj textil.

Veci umiestnené do takejto nádoby musia byť čisté a zachovalé, pretože budú použité na humanitné účely. Ostatný textil a oblečenie budú využité na recykláciu.

Občania môžu do týchto kontajnerov vkladať vo vreciach alebo v igelitových taškách vyradené čisté a suché šatstvo (odevy, bytový textil, topánky v pároch).

- na dosku v hornej časti nádoby je potrebné položiť textil, oblečenie, obuv.
- držiadlo nádoby je potrebné zdvihnúť smerom hore, odpad sám prepadne do dolnej časti nádoby.
- dolná časť nádoby je uzamknutá

**Firmy:** Pracovne a čistiarne Nitra, [Humana People to People Slovakia s.r.o., Martin](#).

Este período continuámos o processo de restauro da cómoda. Como tal, procedemos à disposição das peças partidas de tijoleira, criando um desenho tradicional, tipicamente encontrado na "calçada portuguesa".

Fizemos também uma recolha de garrafas e garrafões que, depois de reciclados/alterados, foram usados como vasos. Aí plantamos os bolbos que nos foram fornecidos (jacintos, narcisos, ranúnculos e túlipas).

(De momento estamos a acompanhar o crescimento das plantas.)

# Recycling

## Describe your project: <sup>(and question)</sup>

(What are you going to do/ find out? What is your aim?)

Our aim is, at the end of the project, to create a "fashion show" where we would display the reused clothing and the recycled metal pieces that we are supposed to do.

(rings, necklaces, etc.)

~~France~~ and Norway <sup>are</sup> going to make something from metal and Norway, Latvia, Portugal and Slovakia something from clothes.

## Who is doing what?

(Are you doing the same in each country?)

- France: Metal
- Norway: ~~France~~ Metal and clothes
- Latvia: Clothes
- Slovakia: Clothes
- Portugal: Clothes

We decided to divide the work according to the facilities that each country has.

## Deadlines?

What should be finished when? (What should be done until the meeting in Belfort in October?)

- Collect information (on recycling, how to work with metal/make the patterns\*)
- Each country should bring examples of what they have been working on. (Patterns for clothing, small metal pieces, etc.)
- Find clothes
  - \* - try to find partners)

## How are you going to keep in touch with the group?

How often should the group be in touch?

We should keep in touch on the internet every other week (and talk in the meantime if needed.)
